PROFESSIONAL SUMMARY

Full-stack developer with hands-on experience building scalable web applications using Flask and FastAPI for backend development, and React and Angular for frontend. Currently working as Associate Engineer at Yottaflex.ai, focusing on API development, PostgreSQL database design, and seamless frontend-backend integration. Skilled in REST API design, JWT authentication, and delivering clean, maintainable code.

TECHNICAL SKILLS

Languages: Python, JavaScript, C++
Frontend: React.js, Angular, HTML, CSS, Tailwind CSS
Backend: Flask, FastAPI, REST APIs
Databases: PostgreSQL

Tools: Git, GitHub, Postman, VS Code, pgAdmin
Libraries: Pandas, NumPy, TensorFlow
Concepts: JWT Authentication, REST API Design, OOP, DSA

WORK EXPERIENCE

Associate Engineer – L1 | Yottaflex.ai

November 2025 – Present

- Developed RESTful APIs using Flask and FastAPI to support scalable backend services
- Implemented JWT-based authentication and role-based authorization for secure API access
- Designed and managed PostgreSQL databases including schema design and query optimization
- Integrated React and Angular frontend applications with backend APIs for seamless UX
- Built CRUD operations and secure endpoints following REST best practices
- Tested and documented APIs using Postman for QA and team collaboration

PROJECTS

WorkNest – Coworking Spaces Platform

Full Stack | Flask/FastAPI · React/Angular · PostgreSQL

- Built a full-stack web application for managing coworking space listings and bookings
- Developed backend APIs using FastAPI and Flask with clean, modular architecture
- Implemented JWT authentication for secure user login and access control
- Designed a normalized PostgreSQL database schema for spaces, users, and bookings
- Integrated frontend (React/Angular) with backend APIs for a seamless end-to-end flow
- Implemented a booking system with CRUD functionality and real-time availability tracking

Stock Price Prediction Using Deep Learning

Python · LSTM · TensorFlow · Pandas

- Built an LSTM deep learning model to predict stock closing prices from historical data
- Performed end-to-end data preprocessing, model training, evaluation, and visualization
- Integrated live data fetching via yfinance and benchmarked against Linear Regression and ARIMA

EDUCATION

B.Tech in Computer Science – Sharda University, Greater Noida

2021 – 2025

Relevant: DSA, OS, DBMS, OOP, Web Technologies, AI, Python, Computer Networks

CERTIFICATIONS

Responsive Web Design – freeCodeCamp

2025

The Complete Web Development Bootcamp – Udemy

2022
